tips

- This 2003 released song by indie rockers Starsailor is a great way to get used to playing 2 of the essential beginner open chords E and A.
- It follows the same pattern throughout the whole song alternating 2 bars of E with 2 bars of A.
- As the song is in 4/4 time you can start off simply strumming 4 down strums for every bar or even just 1 strum at the beginning of each bar if you are just starting out.
- Once you are comfortable with this simple strumming pattern you can start to add more strums. Discuss with your tutor the best patterns to use for this song or try and come up with your own. As long as you change chord at the right time it will sound great.
