tips

- Released in 1984 this Bruce Springsteen protest song is a great introduction to two of the essential beginner chords - A and D.
- Played in 4/4 time the whole song follows the same pattern of alternating 4 bars of A with 4 bars of D.
- Start off by simply strumming 4 down strums for every bar or even just 1 strum at the beginning of each bar if you are just starting out.
- To play along to the record - which is a great way to improve your playing and have fun - you will need to put a capo on the 2nd fret.
