tips

- Although not too tricky note wise the rhythmic element of this song can be a bit confusing at first due it's syncopated feel.
- The riff contains lots of rests. Ask your tutor if you are unsure how these work but essentially you need to cut the note off rather than letting it ring until the next note is played. We do this by slightly lifting our finger off of the fretted note whilst making sure not to remove it from the string completely.
- The tab shows several notes with brackets () around them. For these notes we do not strike the string again - it just means the note rings out a bit longer.
- See *how to read guitar tablature PDF* for how to read tab if you are uncertain.
