tips

- This 2008 Taylor Swift song only contains 4 chords so is great for students moving past 2 chord songs.
- To play in the same key as the original you would need to put a capo at the 4th fret and swap the chords listed above as follows: G = D, D = A, Am = Em, C = G.
- Take note of how each chord get 2 bars in the verse and choruses but only one bar in the pre-chorus and bridge.
